WEB PROPERTIES MANAGEMENT

PURPOSE

The Web Properties Management policy recognizes that in addition to the college website there are related unique web properties that require consistent standards of quality, management controls, and conditions of use.

POLICY APPLICATION AND SCOPE

This policy applies to all members of the college community or any person(s) engaged in activities that connect to the college's website and related web properties in any capacity.

DEFINITIONS

Web Properties: The various digital assets or entities that Camosun College owns or maintains on the internet. These properties can include websites, social media profiles, e-commerce stores, blogs, forums and any other online platforms or channels where content is created, shared, or interacted with. A list of current web properties is maintained on the Web Governance Group site.

POLICY

- iv. Establish sub-committees and working groups to advise on web trends and support the maintenance of the college website, templates and web properties.
- v. Approve or disapprove requests.
- 3. Operations and Delivery Group Core delivery group that is responsible for the day to day operations and delivery of the web channel operations.
